

Look Up and Live Week

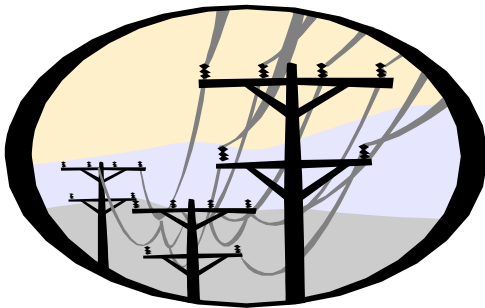

May 18-24, 2008

About Look Up and Live Week

The goal of Look Up and Live Week is to focus the attention of employers, employees and the general public on the importance of exercising caution when working in areas containing overhead power lines so that accidents caused by contact with the lines can be prevented.

We are striving to:

- Increase an understanding of the dangers of overhead power lines.
- Raise awareness of the precautions that must be taken when working in the vicinity of overhead power lines.
- Help reduce injuries by encouraging South Carolina to join together to prevent overhead power line accidents.

Look Up and Live - What You Can Do

At Work

- Launch a recognition program for overhead power line safety hazards.
- Conduct training sessions for employees on overhead power line safety.
- Set up specific safety demonstrations, focused on safe work habits when working around overhead power lines.
- Distribute the Look Up and Live- Pre Construction Site Assessment brochures and train employees on the contents of the brochure.
- Work with your local electric utility concerning overhead power line safety.
- Promote Look Up and Live week by printing articles in your company newsletter.
- Insert Look Up and Live messages in correspondence, memorandums, e-mail messages to staff.
